To Whom It May Concern,

Recently, an EFT for **\$65,000.00** was made into your account associated with the Philipsburg Airport. These disbursements are for an Aeronautics Division **grant for \$65,000.00** from our Airport Development Financial Assistance Program for the Philipsburg Airport. This grant is for general airport reconstruction efforts as outlined within your application and as approved by the Federal Aviation Administration and/or the State of Montana.

The Montana Aeronautics Board and the Aeronautics Division are happy to be able to assist in your airport improvement project by making these funds available through our Airport Development Financial Assistance Program. We look forward to the successful completion of the project. Granite County is to be congratulated for their efforts in maintaining the Philipsburg Airport as an important link in Montana's aviation system.

As a reminder, it is a requirement of Mont. Admin. R. § 18.13.407(10) "Each grant or loan recipient must submit a close-out report, on a form provided by the board, within 30 days after closure of the project or board-approved category of work, or within one year following fund distribution, whichever occurs earliest. If the project is not completed within one year following fund disbursement, the grant or loan recipient must provide a status report detailing the reason the project has not closed and projected closure date upon which the close-out report will be filed." In addition, Mont. Admin. R. § 18.13.407(14) requires "**Any grant or loan recipient which fails to provide the close-out form, status report, or any requested reimbursement is not eligible for future grant or loan awards until the deficiency is remedied.**"

Sincerely,

Karen Hallenbeck, Airports Bureau Chief
Montana Aeronautics Division
